**A note from David M. Shere**

Howdy there,

If you've gotten this far, I'm assuming you've downloaded **45<sup>th</sup> Street Blues** for free and are listening to it. That's great! Thank you for listening to my artwork. That's the best thing any musician can hope for: making a connection with people who are interested in music.

I've started passing this album around for free because I'm trying to draw more attention to it. If you like it, please pass it along to your friends. If you *\*really\** like it, please consider buying a copy of the CD or purchasing the downloadable mp3 version at the following link:

And if you hate it, even better! Please complain about it to everyone you can think of and pass the free version along so your friends can agree with you. One of them might buy it anyway.

Cheers,

David M. Shere
